Magic Income

1% to 3%

Welcome to the world of daily rewards!

- ✦ With Magic Spin Income, you get a spin every day — and can earn between 1% to 3% on your investment daily.

- ✓ Note: If you skip your daily spin, you miss your income for that day.

- ✦ Also, your total earning is capped at 3X of your package amount. For example, if your package is ₹10,000 — you can earn up to ₹30,000 through Magic Income before needing a top-up.

Direct Income

50% Daily Sponsor

- Sponsor Income (Direct Referral Earnings)
This is one of Big Magic's most rewarding features.
- Every time your direct sponsor spins, you earn 50% of the Magic Income they generate from that spin.
- But remember: This income continues only until you reach 3X of your own package value. Once you reach the limit, you'll need to top-up to resume earning sponsor income.

Binary Income

10%

Build Your Team, Build Your Earnings
This is the earning every networker
dreams of – Binary Income!

As soon as you have one user on your left and one on your right, it creates a pair. And for every single pair, you earn a flat 10% binary income.

Note: Your Daily Binary Capping is equal to your package value.
For example, with a ₹10,000 package, your maximum binary earning
for the day will also be ₹10,000.

So the bigger your package, the higher your daily earning potential.
